This afternoon the employes of the Calvin Fardee mine Workers held mass meetings at Epley and Beaver Meadows. Many miners, accompanied by their families, visited neighboring villages to see relatives or friends, as is their custom on Sunday, while most others remained indoors at their homes.

All the mining towns had their full quota at the churches and it was a subject of remark by strangers now in the region that an unusually large proportion of the population attended church. The women and children, however, were in a vast majority. The Catholic faith is the dominating denomination in the coal region.

Three of the deputies who were sworn in by Sheriff Harvey of Luzerne county and who are sons or prominent Wilkesbarre familes were arrested last Farnam, VanBuren B. Howard and A. R. Shoemaker, jr. The men are accused of robbing a Polish liquor dealer of \$107 in cash. There are two sides to the story. The Pelander says he was delivering beer at highland and that the deputies asked him and he consented to let them ride in his wagon to Freeland. At the outskirts of that place, he claims, the men assaulted him and took the money from his

The other story is to the effect that the Polander demanded a see for bringing the deputies to Freeland and not getting it he set up the cry that he had been robbed. A crowd soon gathered and the deputies were taken into custody and given a hearing before a justice of the peace, which lasted until 2 o'clock this morning. This was done in order to prevent the possibility of the men being taken from the local lockup by a crowd which was still waiting to see what disposition was to be made of the deputies. There is an exceedingly strong feeling against deputies in this region, be they accused of crime or not. The three men were released on bail after their arrival at Wilkesbarre,

He had been approached by a reporter and in the course of a conversation had stated that the Spanish ships had been sunk because the plugs were drawn by the Spanish. He explained that it was impossible to sink a ship by hitting it above the water line, Admiral Dowey had, however, compelled the Spaniards to sink their ships and that was just as effective as sinking them with shells. Personally he had the highest possible respect for Admiral Dewey and his great achievement and he greatly regretted that anything had been attributed to him which might tend to destroy the glory of the admiral's deeds.

#### AMERICAN REPLY IN LONDON.

English Papers Think the United States Values China's Good Will Too Righly. LONDON, Sept. 24.-The morning papers are too fully occupied with the general election campaign to bestow much attention on the Chinese problem. The Standard, which discusses editorially the replies of the United

States government, says: "The policy thus laid down implies the existence at Washington of a very exaggerated estimate of the good will of the Chinese rulers. It is to be feared that the action of the United States will tend to weaken the influence of the allies, and for this reason it is greatly

According to the Pekin correspondent of the Daily News, wiring September 16, une Chinese declare most positively that the empress dowager and the emperor will in no case return to the imperial palace in Pekin, as they met at Lattimer and the United Mine hold that it has been desecrated by the intrusion of barbarians. This irreconcilable attitude receives confirmation in many reports emanating from Shanghai. One of these is that as a reply to the denunciation of ence with President Mitchell for the Prince Tuan and others by the viceroys an imperial edict, dated September 17. deals more leniently with the Boxer movement and reminds the people that both the Boxers and Chinese Christians are Chinamen, who shall receive imperial protection if they quietly disperse to their homes. The edict points out that it is impossible for the imperial government to distinguish between good and bad Boxers. It says that if the rebel Boxers still continue to assemble they will be dealt with | ming, Colorado and Utah converge, summarily.

Another report says that the edict frankly declares that no executions can be sanctioned until an adequate

inquiry has been made. Further indications that Prince Tuan has resumed his former ascendancy are found in the Shanghai reports of his promotion and in the statement from the same quarter that General Tung Fuh Siang has been appointed generalissimo of the northern Chinese armies and Prince Chaung, general commander-in-chief of the Boxers, has been made a grand councillor. It is night at Freeland on the charge of also reported that Loh, former goverhighway robbery. They are Hamilton nor of Kiang Su province, a Manchu and bitterly anti-foreign, has been appointed to succeed Li Hung Chang at Canton.

According to various accounts of the Pei Tang affair the Chinese had anticipated that the allies would attack in force. The Britishers and others who left Tien Tsin with the intention of cutting off the retreat of the Pei Tang garrison, arrived too late. They were only halt way to their destination when the forts were captured.

The Tien Tsin correspondent of the Standard explains that the Russians refused to provide trains for this force. but gave the Germans and Austrians ample notice and railway accommodations.

Advices to the Standard from Shanghai place the losses of the allies beto the explosion of mines, one of an earthquake, killing and wounding two mounted officers to pieces.

### Porto Rico Wants Pay.

HAVANA, Sept. 24.-Porto Rico's demand on Cuba for the repayment of more than \$2,500,000 advanced to Spain to conduct military operations against Cuba, has been the source of considerable amusement. # CHASING THE BANDITS

Bands of Experienced Men Close on Trail of Train Robbers.

## CANADA IS CERTAIN OF CAPTURE

Horses of Bandits Have Been Siezed and Fugitives Seeking to Hide in Heavily Timbered Monntains of Colorado-Miscellancous Nebraska Matters.

OMAHA, Neb., Sept. 19 .- W. T. Canada, chief of the special service of the nion Pacific, has returned from Wyoming, where he has been in charge of the pursuit of the robbers who dynamited an express car on a westbound Inion Pacific train recently. Chief Canada is absolutely confident that the capture of the robbers will be effected in the near future. We already have captured their

horses and have they locked up," said Chief Canada, "and these men are now being trailed by men who are as familiar with the mountains in which the robbers are hiding as they are themselves. One posse secured the horses about twenty miles south of Dixon, Colo., shortly after they had been abandoned by the bandits, in order that they might the better elude their pursuers by secreting themselves in the heavily timbered mountains. The scene of the pursuit now is in the mountains where the state of Wyo-

These fellows will be captured There is no question about the outcome. It is only a matter of time and such diligence is being maintained by the men who are trailing ce bandits that they can't keep away much longer. So far as we have been able to learn there are only three men in the gang. The number has been variously reported at three, four and five, but from the best accounts from the mon who were at the scene of the holdup there were only three. It is possible that one or even two of them figured in the Wilcox train robbery. There were six in that gang and all but two have been disposed of. These two may, perhaps, have been in this last robbery, but I hardly think so, as they would hardly have the nerve to figure in another holdup, knowing, as they probably do, the fate of their partners in the former affair. If these are the same ones we will merely be killing two birds with one stone when we capture them, as this last affair has not caused us to relax our efforts toward running down the pair who participated in the Wilcox holdup and are still at large.

Sugar Beets Doing Nicely. OMAHA, Neb., Sept. 19 .- The sugar

beets planted by the company formed of South Omaha business men are doing nicely and a full crop is expected. It is estimated now that the crop will run from fifteen to twenty tons to the acre. No contracts for the crop have been signed as yet, as two factories are in the market for the yield. The Ames Beet Sugar Works will buy the entire grop at the price mentioned early in | Lincoln, Neb., is now ready for busithe spring, but there seems a disposition to let the beets go to the new Beet Sugar and Chicory company, which is now established at the former Home of the Good Shepherd, west of Cudahy's. This new company wants all the beets it can get and is willing to pay a fair price for the product. At this factory a portion of the beets will be used for sugar and the residue will be worked up into chicory. The process now in use permits the using of all of the residue for the manufacture of chicory instead of leaving a large proportion of pulp, as formerly, which was

fed to cattle. It is the intention of the managers of this new concern to endeavor to induce each farmer in the vicinity of South Omaha to agree to cultivate one acre of beets next spring. If each farmer will do this and the crop is any ways fair the factory here can be kept running for some time. As the growing of beets on the island is an assured success it is more than likely that the same South Omaha company will again contract for the land and continue the cultivation of sugar beets.

Coffin and Secretary Jewell, who received the institution from Dr. Lang, as representatives of Governor Poynter, turned the institution over to Dr. W. H. Dearing, the new superintendent. There has bene more or less trouble at this institution for the last

six or eight years. Some time ago Governor Poynter became dissatisfied with the management of the institution under the superintendency of Dr. Lang, and appointed Dr. Dearing. Lang took the controversy into court and Judge Stull granted him a temporary injunction and upon the case coming up to be heard on its merits the judge decided it in favor of Dr. Dearing and against Dr. Lang. #### In the Dark as to the Law.

OMAHA, Sept. 24 .- Judge Shiras of the United States district court decided the case of Thomas L. Sloan against the United States in favor of the defendant on a motion to dismiss for want of jurisdiction. In rendering this decision the court certified the case to the United States supreme court for the purpose of securing final decisions upon some questions where the law is ambiguous. The first question propounded to the supreme court by the district judge is whether he was right in dismissing the case, as he asks whether the act granting the lands in severalty to the Omaha Indians confers jurisdiction upon the circuit court to determine such cases as may be presented under its terms. and whether the court would have jurisdiction when the suit is brought against the United States alone to the exclusion of the Indian tribe and all other persons.
